

MUHAMMAD SHAHEER

FRONT END DEVELOPER

PROFILE

I possess a strong command of HTML and CSS, serving as the cornerstone of web development. My expertise extends to responsive web development principles, ensuring seamless optimization across diverse devices and screen sizes. Additionally, I am adept at leveraging front-end frameworks such as Bootstrap and Tailwind to expedite the development process effectively. Furthermore, my proficiency includes utilizing JavaScript and React.js, a widely acclaimed JavaScript library, to craft dynamic and engaging user interfaces. By incorporating React with TypeScript, I enhance code robustness and maintainability, thus elevating the quality of web applications. My comprehensive tech stack encompasses HTML, CSS, Bootstrap, Tailwind, JavaScript, React.js, React with TypeScript, jQuery, and WordPress, particularly leveraging tools like Elementor and Salient Page Builder. With this diverse skill set, I excel in creating modern, responsive, and feature-rich web applications, positioning myself as a versatile and accomplished front-end web developer.

EXPERIENCE

Saazsol

Jan 2024 – Present

At Saazsol, I serve as a senior frontend developer, leading the creation of innovative web experiences. With expertise in HTML, CSS, JavaScript, and frameworks like React, I drive projects from concept to completion, ensuring top-notch quality and user engagement. Collaborating closely with cross-functional teams, I deliver solutions that exceed expectations, enhancing Saazsol's digital footprint.

MetaNerds Labs

Nov 2022 to Dec 2023

At MetaNerdLabs, I worked as a mid-level Frontend Developer. Proficient in HTML, CSS, and JavaScript, with expertise in frameworks like React, I focused on crafting engaging web interfaces. Collaborating closely with the team, I ensured seamless integration of design and functionality to enhance user experience. Continuously learning and adapting, I strived to make valuable contributions to MetaNerdLabs' projects during my time there.

AppBakerz

jan 2022 to Oct 2022

At AppBakerz, I began as a Frontend Developer intern, where I honed my skills in HTML, CSS, and JavaScript over three months. Afterward, I transitioned to the role of Junior Frontend Developer. In this position, I continued to contribute to projects, focusing on user interfaces and functionality. This progression allowed me to grow within the company while making meaningful contributions to our projects.

Frontend Developer (Freelance)
